

STONCLAD

Serious protection for heavy duty environments. Stonclad provides extraordinary performance under the most demanding conditions. Chemical, abrasion and impact resistant systems assure durability and longevity. Specialized configurations meet the needs of static control and temperature dependent environments. Diversity and performance for the most rigorous industrial applications along with smart design, custom colours and logos.

* Silver Gray and Cool Shale colours require two coats of Stonkote. Silver Gray and Cool Shale are not available in the Stonclad UT system. All samples shown are coated. Stonhard coatings include high solids and solvent based epoxies and urethanes. All coatings are available in the colours shown here in addition to Clear, Black and Safety Yellow. Urethane coatings are also available in White.

Colour matching available with additional lead time, minimum order requirements and a slight premium. Colour reproductions are as accurate as modern photography and quality printing methods can produce. For actual colour please request a sample at www.stonhard.com.

MARIGOLD YELLOW

PAPRIKA

The textured finish of Stonclad UF can be tailored to meet your specific needs. Note that each Stonclad UF installation will have some variation in texture/finish as a result of it being a hand troweled application. Stonclad UF requires no sealer. All colour swatches shown of Stonclad UF are 'as installed' and intended for colour/appearance purposes only.

Stonclad UF is offered in 10 standard colours. Colour reproductions are as accurate as modern photography and quality printing methods can produce. For an actual colour please request a sample at www.stonhard.com.
